

Fact Sheet

Commonwealth of Pennsylvania • Department of Environmental Protection

ASBESTOS PROGRAM FOR CONTRACTORS WORKING IN PENNSYLVANIA

The Pennsylvania asbestos program includes federal and state regulations to help protect the public from exposure to large amounts of airborne asbestos. The following is a brief summary of the regulations. Information in this fact sheet does not supercede any federal, state or local requirements.

WHAT IS ASBESTOS?

Asbestos is a generic term used to describe a variety of natural mineral fibers. From the early 1930s until the 1970s, manufacturers added asbestos to products for strength and to provide heat insulation and fire resistance. Asbestos also resists corrosion and is a poor conductor of electricity. Because few products contained all of these properties, asbestos was widely used in the construction of homes, schools and other buildings.

HOW CAN PEOPLE BE EXPOSED TO ASBESTOS?

Most people are exposed to small amounts of asbestos in their daily lives. However, if materials containing asbestos are disturbed – for example sawed, scraped or sanded into a powder – asbestos fibers are more likely to become airborne and inhaled into the lungs.

HOW IS ASBESTOS REGULATED IN PENNSYLVANIA?

Because asbestos, in certain forms, has been determined to cause serious health problems, the Department of Environmental Protection (DEP) regulates the removal, collection, transportation and disposal of Asbestos-Containing Materials (ACM). The DEP air quality program has adopted and enforces the federal Environmental Protection Agency (EPA) 40 CFR Part 61 Subpart M, the Asbestos National Emission Standard for Hazardous Air Pollutants (NESHAP) regulations, as amended on November 20, 1990. Should a project be subject to the NESHAP regulations, a minimum ten-day notification of the project is required to be made to both EPA and DEP. The EPA and DEP do not regulate the removal of ACM from private residences unless the residence is an apartment with five or more units.

The Pennsylvania Department of Labor and Industry (PA DLI) enforces the Pennsylvania Asbestos Occupations Accreditation and Certification Act of 1990 (Act 194 and Act 161) which requires certification for the following asbestos occupations: contractor, inspector, management planner, project designer, supervisor and worker. PA DLI requires a five-day prior notification for friable asbestos on indoor projects at regulated facilities (including the EPA/DEP exempt private residence when the friable asbestos is disturbed by someone other than the homeowner). Call PA DLI

at 717-772-3396 for more information regarding Act 194 and Act 161.

Contact the municipality where the project is located to find out if there are any local regulations.

WHAT ARE SOME IMPORTANT DEFINITIONS IN THE ASBESTOS NESHAP REGULATIONS?

- Friable ACM is material containing more than one percent asbestos that, when dry, can be crumbled, pulverized or reduced to a powder by hand pressure.
- Nonfriable ACM is material containing more than one percent asbestos that, when dry, **cannot** be crumbled, pulverized or reduced to a powder by hand pressure. It is divided into two categories:
 - Category I includes asbestos-containing packings, gaskets, resilient floor coverings or vinyl asbestos floor tile, and asphalt roofing products.
 - Category II includes any other asbestos-containing material, except Category I nonfriable ACM, such as transite siding shingles, galbestos, concrete-type piping and other ACM concrete-type products.
- Regulated Asbestos-Containing Materials (RACM) are: (a) friable ACM; (b) Category I nonfriable ACM that has passively become friable by water damage, fire damage or weathering; (c) Category I nonfriable ACM that will be or has been subjected to sanding, grinding, cutting, drilling or abrading; and (d) Category II nonfriable ACM that has a high probability of becoming or has become crumbled, pulverized or reduced to a powder in the course of demolition or renovation operations.
- Demolition – the wrecking or taking out of any load-supporting structural member of a facility together with any related handling operations **or** the intentional burning of any facility.
- Renovation – altering a facility or one or more facility components in any way, including the stripping or removal of RACM from a facility component.

- Facility – any institutional, commercial, public or industrial structure. A single residential building with four or fewer dwelling units is not a regulated facility under the NESHAP regulation unless it is part of an installation, which was previously subject to NESHAP regulations or its main use is not residential.
- Installation – any group of buildings or structures at a single demolition or renovation site that are under the control of the same owner or operator. An installation may consist of two or more residential structures.

WHAT DO I NEED TO KNOW BEFORE REMOVING ASBESTOS IN PENNSYLVANIA?

State regulations stipulate that it is illegal for anyone to engage in any asbestos occupation (worker, supervisor, project designer, inspector, management planner or contractor) without proper certification from the PA DLI. These requirements, along with a five-day notification prior to the start of any abatement or demolition project where ACM is present, are outlined in the Pennsylvania Asbestos Occupations Accreditation and Certification Act of 1990 (Acts 194 and 161). Call the PA DLI at 717-772-3396 for more information regarding these requirements.

The building must be thoroughly inspected for ACM prior to any renovation or demolition. If the amount of friable ACM that will be removed is more than 260 linear feet, 160 square feet or 35 cubic feet, the project falls under the federal NESHAP regulations. This requires that a notification be postmarked or hand delivered to DEP and EPA at least **TEN WORKING DAYS** prior to the start of the project. **All demolitions of regulated facilities (as defined above) also require a ten-day notification to DEP and EPA, regardless of the presence of asbestos.**

Additional regulations exist for demolition and renovation of any building containing ACM in Philadelphia and Allegheny counties. In Philadelphia County, call 215-685-7576. For questions in Allegheny County, call 412-578-8133. It is important to contact the appropriate office if your project is located in either of these counties.

WHAT ARE THE PROCEDURES FOR NOTIFICATION?

Notification for projects in Pennsylvania should be made on the "Asbestos Abatement and Demolition/Renovation Notification" form (revised

10/2002) (web form revised 8/2005). A form may be obtained by contacting the DEP asbestos office at 717-787-9257 or by contacting the nearest DEP regional office listed below. The form also can be printed from the DEP Web site found at www.depweb.state.pa.us (Choose Air Topics, then All DEP Programs (A-Z), and under the A heading choose Asbestos). Complete instructions are given with the form. The notice must be delivered by the U.S. Postal Service, commercial delivery service or hand delivery. **FACSIMILES ARE NOT ACCEPTABLE.**

WHAT IF I NEED MORE INFORMATION?

To obtain copies of the NESHAP regulations, the notification form or other information, please contact your regional DEP office:

Southeast Regional Office – 484-250-5920 for work in Bucks, Chester, Delaware and Montgomery Counties.

Northeast Regional Office – 570-826-2511 for work in Carbon, Lackawanna, Lehigh, Luzerne, Monroe, Northampton, Pike, Schuylkill, Susquehanna, Wayne and Wyoming Counties.

Southcentral Regional Office – 717-705-4702 for work in Adams, Bedford, Berks, Blair, Cumberland, Dauphin, Franklin, Fulton, Huntingdon, Juniata, Lancaster, Lebanon, Mifflin, Perry and York Counties.

Northcentral Regional Office – 570-327-3638 for work in Bradford, Cameron, Centre, Clearfield, Clinton, Columbia, Lycoming, Montour, Northumberland, Potter, Snyder, Sullivan, Tioga and Union Counties.

Southwest Regional Office – 412-442-4000 for work in Armstrong, Beaver, Cambria, Fayette, Greene, Indiana, Somerset, Washington and Westmoreland Counties.

Northwest Regional Office – 814-332-6940 for work in Butler, Clarion, Crawford, Elk, Erie, Forest, Jefferson, Lawrence, McKean, Mercer, Venango and Warren Counties.

For work done in Philadelphia County, contact Air Management Services at 215-685-7576.

For work done in Allegheny County, contact Allegheny County Health Department at 412-578-8133.

For more information, visit DEP's Web site at www.depweb.state.pa.us, Keyword: "Air Topics."

UNDERSTANDING ASBESTOS

WHAT IS ASBESTOS?

Asbestos is a generic term used to describe a variety of natural mineral fibers. From the early 1930s until the 1970s, manufacturers used asbestos to strengthen products and to provide heat insulation and fire resistance. Asbestos also resists corrosion and is a poor conductor of electricity. Because few products contained all of these properties, asbestos was widely used in the construction of homes, schools and other buildings.

HOW CAN SOMEONE BE EXPOSED TO ASBESTOS?

Most people are exposed to small amounts of asbestos in their daily lives. However, if materials containing asbestos are disturbed—for example sawed, scraped or sanded into a powder—fibers are more likely to become airborne and inhaled into the lungs. Asbestos fibers are primarily a respiratory health hazard. Fibers that get into water or food also may be ingested, although they usually pass through the digestive system and do not cause a problem.

HOW CAN ASBESTOS AFFECT HUMAN HEALTH?

Studies of people who were exposed to asbestos for a long time in factories and shipyards show that breathing high levels of asbestos fibers can lead to an increased risk of lung cancer; mesothelioma, a rare but fatal form of cancer in the thin membrane lining of the chest and abdominal cavities; and asbestosis, a serious non-cancerous respiratory disease in which asbestos fibers aggravate and scar lung tissue. The risk of these health problems also increases for tobacco smokers.

WHERE IS ASBESTOS FOUND?

Until the 1970s, many types of building products and insulation materials used in homes contained asbestos, although most products made today do not. The only way to get a positive identification of asbestos is to analyze a sample using a special type of microscope.

If asbestos is discovered in the home, it does not pose a serious problem as long as it remains in good condition. Usually, it is best to leave asbestos material alone. Over time, it may become damaged, either from being disturbed or from age, at which point it is more likely to become airborne and a health hazard.

Common products in the home that might contain asbestos include:

- **Insulation around steam pipes, furnaces and air ducts** – Asbestos fibers may be released when insulation is damaged or removed improperly.
- **Vinyl floor covering** – Vinyl tiles, the backing on vinyl sheet flooring and adhesives (mastic) used for installing floor covering may become a problem if sanded or scraped during removal.
- **Roof shingles and siding** – These products, if they contain asbestos, are not likely to release asbestos fibers unless sawed or drilled.
- **Soundproofing or decorative material** – If sprayed on walls and ceilings, material that is loose, crumbly or water-damaged may release fibers. So could material that is sanded, drilled or scraped.
- Other products that may contain asbestos:
 - ☑ cement sheet, millboard;
 - ☑ door gaskets in furnaces;
 - ☑ patching and joint compounds;
 - ☑ textured paints;
 - ☑ artificial ashes and embers for gas-fired fireplaces;
 - ☑ fireproof gloves, stove-top pads, ironing board covers and hairdryers; and
 - ☑ automobile brake pads and linings, clutch facings and gaskets.

HOW DOES PENNSYLVANIA REGULATE ASBESTOS?

Because asbestos in certain forms can cause serious health problems, the Pennsylvania Department of Environmental Protection (DEP) regulates the removal, collection, transportation and disposal of asbestos materials. The DEP Bureau of Air Quality has adopted and enforces the federal asbestos regulations (40 CFR Part 61 Subpart M). DEP does not regulate the removal of asbestos from privately owned homes. However, under

the Pennsylvania Department of Labor and Industry (PA DL&I) Asbestos Occupations Accreditation and Certification Act (Number 1990-194), friable asbestos material disturbed by someone other than the homeowner may be regulated. Contact the PA DL&I at 717-772-3396 for more information. Contact the local municipality to find out about local regulations.

Pennsylvania requires certifications for the following asbestos occupations: contractor, inspector, management planner, project designer, supervisor and worker. Call PA DL&I at 717-772-3396 for more information about the Asbestos Occupations Accreditation and Certification Act of 1990 (Acts 194 and 161).

ASBESTOS IN SCHOOLS

All nonprofit private and public school administrators, with children in grades one through 12, are required to inspect their buildings for asbestos, develop a plan for controlling the release of asbestos fibers and maintain asbestos that is in good condition. Questions should be directed to DEP at 717-787-4325.

ENFORCEMENT/COMPLAINTS

If improper asbestos removal or repair projects are suspected, contact the local regional DEP office listed below.

ATTENTION ASBESTOS CONTRACTORS

Asbestos contractors in Pennsylvania must comply with the U.S. Environmental Protection Agency (EPA) Asbestos regulations in 40 CFR Part 61 Subpart M. Questions about these regulations may be referred to any DEP regional air quality program office listed below.

The Pennsylvania Asbestos Accreditation and Certification Act (Act 194 and Act 161) requires contractors to be certified and licensed by PA DL&I to perform renovation projects involving asbestos. For more detailed information about these requirements, call 717-772-3396.

Additional regulations exist for demolition and renovation of any building with asbestos-containing material in Philadelphia and Allegheny counties. In Philadelphia County, call Philadelphia Air Management Services at 215-685-7576. In Allegheny County, call the Allegheny County Health Department at 412-578-8038. It is important to contact these offices if the project is located in either of these two counties.

WHERE IS THERE MORE INFORMATION?

1. Call the DEP Bureau of Air Quality in Harrisburg, 717-787-9257. Online information about asbestos can be found at www.dep.state.pa.us, keyword: asbestos.
2. Call the Air Quality program at the local DEP regional office:
 - Southeast (Norristown), 484-250-5900
 - South-central (Harrisburg), 717-705-4702
 - Northwest (Meadville), 814-332-6940
 - Southwest (Pittsburgh), 412-442-4174
 - Northeast (Wilkes-Barre), 570-826-2511
 - North-central (Williamsport), 570-327-3638
3. For Allegheny County, call 412-578-8120 for information and special regulations.
4. For Philadelphia County, call 215-685-7576 for information and special regulations.
5. Contact the local municipality to find out if there are any local regulations.
6. The EPA Asbestos Ombudsman, 800-368-5888, has an asbestos information package available to the public.
7. The U.S. Consumer Product Safety Commission, 800-638-2772, will send information about asbestos upon request.
8. The PA DL&I, 717-772-3396, has information about certification requirements for the asbestos disciplines.

The American Lung Association, the U.S. Consumer Product Safety Commission and EPA provided much of the information included in this fact sheet.

For more information, visit www.dep.state.pa.us, keyword: asbestos.

ASBESTOS ABATEMENT AND DEMOLITION/RENOVATION NOTIFICATION FORM

Complete all applicable sections of the notification. Fax copies are not accepted, as the notification must be certified with an **original signature**. To avoid a violation by failure to report, it would be prudent to submit a notification regardless of friability of materials. This form is used to satisfy the notification requirements of the following agencies:

- PA Department of Environmental Protection
- PA Department of Labor and Industry
- Allegheny County Health Department
- City of Philadelphia Department of Public Health
- US Environmental Protection Agency

Questions relative to specific filing requirements and enforcement regulations should be directed to the governing agency. Addresses and phone numbers are listed on the reverse. **Do not mail original notifications to the Department of Labor and Industry.**

- Special Notations:**
- All REVISIONS to a previous notification should be highlighted
 - Item #5 - Check the box that best describes the entire project
 - Item #6 - The "Job No." portion of this Item is provided for those contractors who assign a unique job # to their projects
 - Item #12 - Please provide the information in the format requested
 - If additional space is needed for any descriptive text, please continue on a blank sheet, and attach

For projects in **all areas except Allegheny County and the City of Philadelphia**, this Notification and subsequent revisions (one original only, **no copies**) must be submitted to the following address.

Regular Mail
ASBESTOS NOTIFICATION
DEP BUREAU OF AIR QUALITY
PO BOX 8468
HARRISBURG, PA 17105-8468

Overnight/Express Mail/Hand Delivery
ASBESTOS NOTIFICATION
DEP BUREAU OF AIR QUALITY
400 MARKET STREET
HARRISBURG, PA 17101

For projects in **Allegheny County or the City of Philadelphia**, this form must be submitted to the appropriate address, directly following. Allegheny County requires two copies, the City of Philadelphia, three. If this project requires a permit application, it must be approved prior to the start of the project, and 2 copies must be included with the notification. A copy of the facility inspection survey must also be included for all demolition projects. Do not send these documents directly to Harrisburg.

Allegheny County Health Department
Air Quality Program
Building 7
301 39th Street
Pittsburgh, PA 15201-1891
Attn: Asbestos Abatement Permitting

City of Philadelphia
Department of Public Health
Air Management Services
Asbestos Control Unit
321 University Avenue
Philadelphia, PA 19104-4597

Allegheny County - A permit is required if the project involves at least 260 linear feet or 160 square feet of any asbestos containing material. For Item #10, the survey must be included for demolition projects. Item #25 should be signed by the Contractor. Item #26 should be signed by the Facility Owner. Information can be obtained by calling 412-578-8133.

City of Philadelphia - A permit is required if the project involves 80 or more square feet or 40 or more linear feet of friable asbestos containing material and does not involve an exempted private residence. Information can be obtained by calling 215-685-7576.

If this project is regulated by the Asbestos **NESHAP**, a photocopy of this notification must be sent to EPA Region III at the address directly following. EPA's telephone number is 215-814-2164/215-814-2135.

Asbestos NESHAP Coordinator (3WC32)
US EPA Region III
1650 Arch Street
Philadelphia, PA 19103-2029

Questions regarding completion of the notification form should be directed to 717-772-3993/717-787-9257 or the appropriate enforcement agency listed on the reverse.

REMINDER: Notifications must contain original signatures for items 25 and 26 or they will be returned to the sender, unprocessed. If a notification is returned for original signature, the ten-day reporting period will begin with the postmark date of the resubmitted notification with original signature.

ASBESTOS ABATEMENT AND DEMOLITION/RENOVATION NOTIFICATION FORM

For Official Use Only	Date Received 1	Date Received 2
Postmark Date: _____ Project ID#: _____ Permit #: _____ Other #: _____ Inspector: _____	<div style="border: 1px solid black; width: 100%; height: 100%;"></div>	<div style="border: 1px solid black; width: 100%; height: 100%;"></div>

NOTICE: This is not a valid asbestos abatement notification for the purposes of the Asbestos Occupations Accreditation and Certification Act unless individuals and contractors have met the certification requirements as set forth in the Asbestos Occupations Accreditation and Certification Act, Act of 1990, P.L. 805, No. 194 (63 P.S. Sections 2101-2112).

REFER TO THE ATTACHED INSTRUCTIONS FOR INFORMATION AND REQUIREMENTS.

1.	TYPE OF NOTIFICATION (check one): <input type="checkbox"/> Revision (highlight here, and changes) <input type="checkbox"/> Postponement	<input type="checkbox"/> Initial <input type="checkbox"/> Phase of Annual Notification <input type="checkbox"/> Cancellation	<input type="checkbox"/> Annual Notification
Date of Initial Notification or, if previously revised, date of last revision: _____			
2.	PROJECT LOCATION (check one): <input type="checkbox"/> Allegheny County <input type="checkbox"/> City of Philadelphia <input type="checkbox"/> Other Location in PA (specify county): _____		
3.	For Allegheny County and City of Philadelphia projects only: A. Does this project require a permit? <input type="checkbox"/> Yes <input type="checkbox"/> No (If Yes is checked, a permit application must be submitted along with this notification and approved prior to the start of the project.) B. For City of Philadelphia projects requiring a permit: Asbestos project inspector: _____ Certification #: _____ Company name: _____ Address: _____ City: _____ State: _____ Zip: _____ Phone: _____		
4.	WILL ALTERNATIVE METHODS TO ANY OF THE APPLICABLE REGULATIONS BE USED? <input type="checkbox"/> Yes <input type="checkbox"/> No (If Yes is checked, approval must be obtained prior to the start of the project. Please contact the appropriate DEP regional office or local government agency (see reverse of Instruction Sheet for contact list).		
5.	TYPE OF OPERATION (check one): <input type="checkbox"/> Demolition <input type="checkbox"/> Ordered Demolition <input type="checkbox"/> Renovation <input type="checkbox"/> Emergency Renovation <input type="checkbox"/> Abatement prior to Demolition		
6.	FACILITY DESCRIPTION: Job No.: _____ (see instructions) Facility Name: _____ Street/Rural Address: _____ City: _____ State: <u>PA</u> Zip Code: _____ Present use: _____ Prior use: _____ Will the facility be occupied during the abatement activity? <input type="checkbox"/> Yes <input type="checkbox"/> No Facility size in square feet: _____ # of floors: _____ Age in years: _____		
7.	ABATEMENT CONTRACTOR: Company name: _____ Allegheny County or City of Philadelphia License # (if applicable): _____ Street/Rural/POB Address: _____ City: _____ State: _____ Zip: _____ Contact: _____ Telephone No. (between 8:00 & 4:30): _____		

8. DEMOLITION CONTRACTOR:
 Company name: _____
 Street/Rural/POB Address: _____
 City: _____ State: _____ Zip: _____
 Contact: _____ Telephone No. (between 8:00 & 4:30): _____

9. FACILITY OWNER:
 Owner name: _____
 Street/Rural/POB Address: _____
 City: _____ State: _____ Zip: _____
 Contact: _____ Telephone No. (between 8:00 & 4:30): _____

10. FACILITY INSPECTION (required for renovation and demolition projects):
 Building inspector: _____ Certification # _____
 Date of inspection: _____ Is any material assumed to be asbestos? Yes No
 Procedure, including analytical method, if appropriate, used to detect the presence of asbestos material:

Building is ID and in danger of collapse. An asbestos investigator will be on site during demolition. (Philadelphia only)

11. IS ANY TYPE OF ASBESTOS PRESENT Yes No If Yes, please list in #12

12. TYPE OF ACM, DESCRIPTION & LOCATION OF MATERIAL, APPROXIMATE AMOUNT OF ACM, TYPE OF ABATEMENT AND FINAL AIR CLEARANCE METHOD.

PROVIDE INFORMATION IN THE SPACES BELOW, THEN CONTINUE ON ANOTHER SHEET, IF NECESSARY, USING THE SAME FORMAT.

Code *	Description of material	Location of material (room/floor/area)	Amount of ACM	Code **	Code ***	Code ****

Code *	Code **	Code ***	Code ****
Type of ACM	Units	Type of abatement	Final Clearance
FRI - Friable ACM	LF - Linear ft.	REM - Removal	PCM - Phase contrast microscopy
NF1 - Cat I nonfriable ACM	SF - Square ft.	CAP - Encapsulation	TEM - Transmission electron microscopy
NF2 - Cat II nonfriable ACM	CF - Cubic ft.	CLO - Enclosure	
(Note: Allegheny County treats all ACM as friable)		NON - None	

13. Is this project regulated by NESHAP Yes No
 A project that includes the demolition of any defined "facility" is regulated by NESHAP. A renovation project is also regulated by NESHAP when the amounts of friable ACM, or ACM that may be rendered friable, are as follows: 260 LF or 160 SF or 35 CF.

14. OPERATION SCHEDULE(S) (as applicable)

A. Asbestos abatement: Start Date: _____ Completion Date: _____
 Daily hours of operation: _____ am pm to _____ am pm
 Days of week (check) Mo Tu We Th Fr Sa Su

B. Demolition: Start Date: _____ Completion Date: _____
 Daily hours of operation: _____ am pm to _____ am pm
 Days of week (check) Mo Tu We Th Fr Sa Su

C. Renovation: Start Date: _____ Completion Date: _____
 Daily hours of operation: _____ am pm to _____ am pm
 Days of week (check) Mo Tu We Th Fr Sa Su
