## Celebrating 5 years of preserving West Pikeland... *together.*

Five years ago, the residents of West Pikeland voted to invest in preserving our community's green spaces. The results, thus far, have been tremendous—149 acres of preserved open space, 2.2 miles of trail rights-of-way, one mile of protected streams. And, for every \$1 of open space funds we've spent, our partners have contributed \$1.50.

When we preserve open space in our community, our children have places to play and learn. Our water stays clean and safe for recreation. The scenic views we love remain intact. Our home values are enhanced. The quality of life that drew many of us to West Pikeland in the first place is protected.

The West Pikeland Board of Supervisors and West Pikeland Land Trust have worked hard to use your open space investment efficiently and effectively. We'll be announcing more exciting successes in the coming months. **To learn more and sign up for email updates, visit [wplandtrust.org](http://wplandtrust.org).**

*The West Pikeland Board of Supervisors formed the all-volunteer West Pikeland Land Trust in 1999 to encourage the preservation and stewardship of open space.*
